

The log

The specific target that this issue matches is target 1.4 of goal 1 that states : "By 2030, ensure that all men and women, in particular the poor and the vulnerable, have equal rights to economic resources, as well as access to basic services, ownership of land, and other forms of property, inheritance, natural resources, appropriate new technology, and financial services, including microfinance".

If we were to ask someone what it is like when you're living off of basically 1.25\$ a day, they're going to say its horrible,

Here is a link to the lived experice of somone who has suffered this, [LINK](#)

If we do absolutely nothing about this for 20 years, then things will become increasingly worse, meaning that the purchasing power will go down for people with minimum wage every year so quickly to the point where they would be dying in 10 years, let alone 20.
