

Caring Buddies Project

This assignment is an opportunity for our older students to develop and display their leadership skills while setting a positive example for our younger students here at school. For this assignment, you will be tasked with coming up with an activity, presentation, or any other idea that is approved by your teacher and lead one of our younger classes through it. Follow the details below to complete this assignment.

I Can Statements	To complete this assignment please follow the “I can” statements listed below: I can complete a project proposal and have it approved by my teacher I can complete one observation of the class I have selected for this project I can document and reflect on my progress throughout this assignment in my Blueprint Portfolio I can create or prepare the resources needed for my assignment
Project Proposal PROPOSAL FORM HERE	Before you can get started on this project it is important to think about and plan what you want to do. Spend some time brainstorming and thinking about potential ideas you would be interested in taking on for this assignment. When you have an idea you are interested in completing the project proposal. This will act as your basic plan and overview of what you are trying to
My Blueprint Portfolio How To Video	As you work your way through this assignment you will be expected to document your progress by completing the reflections below. You can cut and paste the questions into your portfolio and answer them by typing in your response or using the recording options. Be sure to attach any resources that relate back to your portfolio. The questions are located on page two.
Outcomes	Learners will formulate responses to change in Canadian Society. Learners will implement an advocacy action in response to an issue. Competencies: Creativity, Communication, Creativity and Innovation, Personnel Career Development, Technological Fluency

My Blueprint Portfolio Reflection Questions

Click on the link [here](#) if you need a refresher on how to create a portfolio on My Blueprint. Follow the instructions below to create your portfolio and your reflections. All of your four reflections should be in your Blueprint portfolio.

Creating Your Portfolio	
Name	The name of your My Blueprint Portfolio should be: Bucci's Buddies Project
Description	You can type this in yourself or cut and paste it in: This is my project portfolio for Mr. Bucci's Buddie's Project. Here you will find my 4 different reflections.

Creating Your Reflections:		
Reflection	Title and Description	Questions
Project Proposal	Title: Project Proposal Reflection Questions Description: Cut and paste the reflection questions then hit "Post" in the top right corner. Click on add reflection and then type or record your response.	-How will your project have a positive impact on you and the class that takes part in it? -Do you prefer working independently or with a partner or small group? Explain why. -If you had to pick a potential career you could see yourself being interested in right now. Which one would you pick and why?
Activity Log	Title: Activity Log Description: Cut and paste this into the information in the question section	Provide a brief description of what you worked on for this project during your time in class.
Class Observation	Title: Class Observation Reflection Description: Cut and paste the reflection questions then hit "Post" in the top right corner. Click on add	-What are three observations that stood out to you from watching the class you selected? -How did your observation match up with your expectations of the group when you selected them?

	reflection and then type or record your response.	-What is one thing you learned from this observation that will help you with your project?
Project Presentation Reflection	Title: Class Observation Reflection Description: Cut and paste the reflection questions then hit "Post" in the top right corner. Click on add reflection and then type or record your response.	-What did you think went well about your project presentation? -Is there anything you could have improved on or would change if you had to do it over again? -What did you learn about yourself from this project and process?
