

ENTea

By: Nick & Ellee Weagle

Our Ethical Production Values

ENTea Strives to provide our product through ethical production and working conditions. We make sure to use eco-friendly transportation to receive our products and make sure our employees are paid a fair, living wage. Our price isn't much higher than the Free trade price, considering they were recently accused of taking advantage of child labor and low labour costs in third world countries like India, Sri Lanka and Kenya. All our Tea is locally made by the free will of fairly paid workers.

Social Engineering Methods

ENTea will use a modern themed website that heavily pushes our ethically sourced tea, by having visual aids showing the harsh and abusive conditions of opposing tea brands, customers will be inclined to purchase our tea over competitors, not wanting to support other tea brands mistreatment of employees. Our website can purposely place higher priced items around our cheapest tea brand, promoting our tea as an affordable and cheap option that is more desirable. When selecting tea to buy, our brand is automatically selected as an option to buy, resulting in customers having to deselect our brand when purchasing tea and select another competitor brand.

Positives When Buying Our Tea

Our tea brand ensures all employees have a more than livable wage, giving them money to be properly housed, nourished and educated. A small

Overall Sales Pitch
